WORLD CLUBS TOURNAMENT

The World Clubs Tournament is a friendly international competition accessible to horse riding clubs and their riders beginning in competition with horse riding club' horses from all over the world. Beyond the fun and the love of sports, the purpose of this event is to offer to riders a unique opportunity of multicultural exchanges around a mutual passion. This event is scheduled every year during the French National Championships (Generali Open de France) which takes place in the Parc équestre fédéral, located in Lamotte-Beuvron (France).

CONCEPT

Horse riding clubs from abroad are represented by a team of three or four riders and compete in two jumping rounds. A provisional ranking is made after each round and the definitive ranking is established at the end of the competition.

GOALS

The main purpose of this tournament is to create a friendly event where competitors meet riders from other countries and share their equestrian culture. It also offers to young riders the opportunity to experience the atmosphere of an international competition which includes national anthems and a colourful Parade of Nations. The World Clubs Tournament enables foreign team leaders to discover the development and improvement of French riding schools as well as how to increase equestrian involvement in their home country.
